ABOUT SPACE FACE

Ever wonder why you never see a Sasquatch? It's because they are from outer space and they have Squatchflauge. What is Squatchflauge you ask, well it's the ability to blend into their surroundings at any moment. This show tells you a lot of fun facts about our space squatch Space Face. He is a rockin' loveable Sasquatch who has a chance meeting with an emerging rock Icon in the 70's and decides to set out so they can meet again.

He tells his parents and they don't understand that his need to rock is real, and who can't relate to their parents not understanding them? So he heads out on the road and meets Seward the Crow, a surly crime novelist who fancies himself William Burroughs then he meets Humphrey Badger a hipster chef who specializes in "Forest Fusion" and has a tad bit of an obsessive thing for socks.

ABOUT SPACE FACE

They form a traveling crew ...The Big Eye Crew. The crew sets off in search of their goals and they run into Louie an old carny who tricks them into working at his broken down amusement park Bigfootville, and here is where the chaos begins as we follow the crew in their new lives at Bigfootville. Space Face is a weekly animated series that is ok for kids but edgy enough that parents will love the movie and music pop culture references that make Space Face a swirling mass of Meta-Genius.
