WRITTEN AND DIRECTED BY
CAMILLE STOCHITCH & ALEXANDER BERMAN

LOGLINE

A group of precocious teens experience the adventures and mysteries of high school in virtual reality... a place where anything is possible.

SYNOPSIS

Sophia is 15 years old and goes to high school in Virtual Reality. Every morning, instead of driving to school, she puts a VR headset on and connects to the virtual world. In Virtual High, anything is possible: History classes are literally a battlefield, Physics is in a NASA mission control, and Romeo and Juliet freely roam around campus. Today is a different day though: Sophia is trying out for the Digicrosse varsity team. Just like Lacrosse with magic, this sport is something Sophia excels in. Unfortunately, her rival Lin makes the team and gets to hang out with the captain and Sophia's crush, Julian. But when Sophia realizes Lin might have cheated, she needs to make a choice: expose her and do the right thing, or accept her fate?
